## Treatment Protocol

### Cranberry Splendor Rejuvenation Facial

#### Features & Benefits:

- A concentrated fluid peel based on the exfoliating properties of lactic and glycolic acids (AHAs) at the maximal allowed concentration (16%) for professional use.
- A luxurious care mask that gently pampers delicate face and neck, leaving a firming effect with a sensation of comfortable relaxation.
- A concentrated, penetration-enhancing enzymatic massage peel lipogel, which effectively exfoliates dead cells from epidermal layers.
- Infusion of a luxurious and velvety emulsion for balancing mature skin and smoothing wrinkles.

#### Guidelines:

This is an extensive and luxurious treatment that combines the natural antioxidant goodness of cranberries, the power of peptides, the exfoliating benefits of lactic acid, and the hydrating magic of hyaluronic acid to leave your clients skin glowing with health and vitality.

**Step 1:** Pre-cleanse the skin using the Premium Mascara & Eye Makeup Remover to ensure all makeup removed from the clients skin. Remove with warm water and sponges.

**Step 2:** Cleanse the skin using the Seba Foam Mild Facial Cleanser. Remove with either a warm towel or warm water and sponges.

**Step 3:** Tone the skin with Moisture Splash. You can either spritz over clients skin and pat in or apply using a cotton pad.

**Step 4:** Hydrate the skin. Prep your mask by dropping the SetFM Pressed EcoMask Tablet into a bowl of clean warm water, set aside. Paint a hearty layer of the HA Hydration Gel to the skin using a brush. Apply the expanded Cotton EcoMask. Paint a second layer of HA Hydration Gel over the top of the mask. Let sit for 10 to 15 minutes. Remove the mask, massage remaining serum into the skin, and dry the skin using 4x4s or tissue.

## Treatment Protocol

### Cranberry Splendor Rejuvenation Facial

**Step 5 (Optional):** While the HA Hydration Gel mask sits perform neck, shoulder, and/or hand massage using the Golden Seabuckthorn Cream to Oil Massage Cream or perform Gua Sha massage over the mask.

**Step 6:** Using a peel brush or cotton swab apply a layer of the Lacto-Cranberry 16% to the clients skin. Leave on for for 1-3 minutes during the first treatment then adjust time accordingly for future treatments. On clients with resilient skin tolerating the peel well you can perform a fingertip massage over the peel. Using Tepid Water and sponges remove the peel from the clients skin.

**Step 7:** Apply Cell 2 Cell Repair Emulsion to smooth and protect the skin. Leave on.

**Step 8:** Apply Carrotinol Biomimetic Enzyme Peel Massage this gel to oil hydrating peel into the skin for 5 minute. leave on.

**Step 9:** Directly over the Carrotinol perform a full face, neck, and decollate massage using the Golden Seabuckthorn Cream-to-Oil Massage Cream. Remove with a hot towel or warm water and sponges.

**Step 10:** Apply the Touch of Gold Beauty Mask to the skin. Leave on for 15 minutes. Remove with tepid water. With a Warm Towel remove the mask. Clear any remaining residue with sponges and tepid water.

**Step 11:** Apply the First of All Quenching serum to the entire face. let dry – leave on.

**Step 12:** Gently apply the Bio-Peptide Leave On Eye Contour Mask to the orbital bone and under eye areas. As a potential add on to boost the results of the Bio-Peptide Eye Contour Mask use a device like the MBK Eye Rejuvenator.

**Step 13:** Apply the Smoothing Repair butter to the skin to lock in moisture and suppress environmental hazards. If the treatment is done during the day follow with SPF.

**Step 14:** Finish the treatment by applying the Shea Butter lip to the clients lips with a Q-tip.
